Mr. Stephen W. Holt  
NL Industries, Inc.  
Corporate Environmental Services  
P.O. Box 1090  
Hightstown, N.J. 08520

Dear Mr. Holt:

Attached are the revised results of the Phase III oversight samples taken by EBASCO, EPA's oversight contractor at the NL Industries, Inc. Superfund site, located in Pedricktown, New Jersey. Please note that the locations referred to in the Sediment Analysis Package may be found in Figure V-1 in Volume IV of the Remedial Investigation for the site, dated March 1991.

Upon review of the data, we have revised the units on the groundwater analysis. The correct units are micrograms/liter (ug/l). This discrepancy was noted in your monthly progress report dated July 17, 1991. A copy of this letter, the monthly progress report and the revised results will be added to the Administrative Record for Operable Unit 1 for the site.

If you have any questions, please call me at (212) 264-6418.

Sincerely yours,

Michael H. Gilbert, Project Manager  
Southern New Jersey Superfund Section - II
